

The beginning of Emdoor Info's custom service

In 2010 , Emdoor Info has already trained the industry tablet customized R&D business, set up a development team and began to help customers to solve related problems before fully entered the industry tablet development in 2012. Through unremitting efforts, struggle and pay and more than ten years hard working, we received the industry accumulation and experience fruits. There is no doubt, Emdoor Info became the pioneer of the industry tablet solutions. Meanwhile we are one of the few domestic tablet manufacturers with large-scale shipping capacity. While standard products become a solid foundation, Emdoor Info is still adhering to the high level custom services. We never forget the original intention and try our best to solve special problems for customers. It has always been our primary goal to provide qualified productivity tools and satisfactory customized services for customer.
